

ZEBRA SOLUTIONS

Create Highly Secure ID Cards

SEE MORE. DO MORE.

WHEN SECURITY COUNTS, COUNT ON ZEBRA FOR HIGHLY SECURE CARD SOLUTIONS.

Security is a top priority today more than ever. Improve your organization's security with Zebra's advanced security ID card solutions.

Combat card counterfeiting and unauthorized alterations and duplications with levels of customizable security features offered through Zebra's pre-printed cards, True Secure™ laminates and Security class card printers.

Start with a high-quality Zebra plastic card containing your choice of pre-printed security features and built-in security materials. Using Zebra's Security class on-demand card printers, encode magnetic stripes, radio frequency identification tags for proximity cards, or smart chips for data security in smart cards, plus print variable text and vibrant ID photos. For higher card security and durability, add laminates embedded with additional overt, covert and forensic features.

Zebra card products provide businesses enhanced security, increased productivity, improved quality, lower costs and better customer service.

Choose from a broad range of full color or monochrome card printers. Options range from Ethernet connectivity, Gen 2 UHF RFID and magnetic stripe encoding, to lamination for higher security and card durability. There is a Zebra card printer to meet all your business needs.

Overt Visual Security Elements

Overt visual security elements, which are visible to the human eye, are easy to authenticate and very difficult to forge.

Covert Elements

Covert elements require a device to make them readable by the human eye.

Forensic Elements

Forensic elements are microscopic and the most difficult for a counterfeiter to detect and replicate.
